CONTENTS

Special issue: Electrochemical Decontamination of Soil and Water

Dedication to Yalcin B. Acar vi

Preface ix

Effect of aqueous phase properties on clay particle zeta potential and electro-osmotic permeability: Implications for electro-kinetic soil remediation processes
L.M. Vane and G.M. Zang (Cincinnati, OH, USA) 1

In-situ monitoring of electrochemical transport processes in Hanford Grout Vault Soil
D.T. Schwartz (Seattle, WA, USA), M.F. Buehler (Richland, WA, USA), D.X. Christiansen and E.J. Davis (Seattle, WA, USA) 23

Scale-up aspects of the Lasagna™ process for in situ soil decontamination
S.V. Ho, C.J. Athmer, P.W. Sheridan (St. Louis, MO, USA) and A.P. Shapiro (Schenectady, NY, USA) 39

EDTA-enhanced electroremediation of metal-contaminated soils
J.S.H. Wong, R.E. Hicks and R.F. Probstein (Cambridge, MA, USA) 61

Electroosmosis technology for soil remediation: laboratory results, field trial, and economic modeling
D.S. Schultz (Newark, DE, USA) 81

Mathematical modeling of hexavalent chromium decontamination from low surface charged soils
B.S. Haran, B.N. Popov, G. Zheng and R.E. White (Columbia, SC, USA) 93

Department of Energy sites suitable for electrokinetic remediation
D.J. Kelsh and M.W. Parsons (Gaithersburg, MD, USA) 109

Electrokinetic dewatering of a phosphate clay
J.Q. Shang and K.Y. Lo (London, Canada) 117

Effects of soil composition on the removal of chromium by electrokinetics
K.R. Reddy, U.S. Parupudi, S.N. Devulapalli and C.Y. Xu (Chicago, IL, USA) 135

Electroflotation for groundwater decontamination
C.P.C. Poon (Kingston RI, USA) 159

Development of pore pressures by nonuniform electroosmosis in clays
G.R. Eykholt (Madison, WI, USA) 171

Laboratory study of electrokinetic effects in complex natural sediments
T. Grundl and C. Reese (Milwaukee, WI, USA) 187

Enhanced electrokinetic remediation of high sorption capacity soil
S.K. Puppala (Baton Rouge, LA, USA), A.N. Alshawabkeh (Boston, MA, USA), Y.B. Acar (Baton Rouge, LA, USA), R.J. Gale and M. Bricka (Vicksburg, MS, USA) 203

Physicochemical soil–contaminant interactions during electrokinetic extraction
A.T. Yeung, C.-n. Hsu (College Station, TX, USA) and R.M. Menon (Cleveland, OH, USA) 221

Effects of conductive fractures during in-situ electroosmosis
L.C. Murdoch and J.-L. Chen (Cincinnati, OH, USA) 239

Electrokinetic transport of bacteria
M.F. DeFlaun and C.W. Condee (Lawrenceville, NJ, USA) 263

Influence of current density and pH on electrokinetics
J.T. Hamed and A. Bhadra (Carbondale, IL, USA) 279

Removal of Pb(II), Cd(II) and Cr(III) from sand by electromigration
Z. Li, J.-W. Yu and I. Neretnieks (Stockholm, Sweden) 295

Electrochemical extraction and stabilization of selected inorganic species in porous media
S. Pamukcu, A. Weeks (Bethlehem, PA, USA) and J.K. Wittle (Wayne, PA, USA) 305
